

Jayhawk Marina, Inc.

Dock Fishing SOP for Slip Tenants

Only registered guests will be authorized to fish at your slip in your absence – during open hours only

Slip tenants may call, email or stop by the marina to register up to 5 guests authorized to fish at their slip during open store hours. Tenants may add/remove names from their guest list at any time.

A guest logbook is located at the checkout counter in the marina. Guests must check-in upon arrival and check-out when departing. The guest will receive an identification badge/lanyard to wear which must remain visible at all times.

Upon departure, lanyards must be returned to the marina. All guests must check out no later than 15 minutes prior to the marina closing. If a guest fails to return a lanyard by marina closing time, a fee of \$18.50 will automatically be charged to the slip tenant's account and guest privileges may be revoked for that guest.

Guests are not permitted to fish at ANY slip other than the assigned slip tenant's slip or in the indoor fishing dock. If the guests would like to fish in the indoor dock, they must pay the daily fee prior.

During closed hours, only slip tenants and their immediate family are authorized to enter the marina property. Immediate family consists of parents, spouse & children. All other family and friends will be considered guests per our Slip Rental Agreement. For the safety of all tenants and marina property, please do not give your guests the gate code.

Please tag all fish baskets if they remain in your slip with your last name and slip number. Tags are available at the marina if needed (place the tag on the basket rope). Each slip is authorized to have one fish basket per person. Untagged baskets may be removed.

Please do not leave fish in your basket over 24 hours. A cleaning station is located in the fishing dock during open hours for your convenience. DO NOT clean fish at the slips.

Slip tenants only may fish at other slips only if they have permission from that slip owner. Please respect your neighbor's space and property.

Please fish legally. Marina staff and/or slip tenants may contact KDWP or the game warden if illegal activity is observed. The marina staff is authorized to removed customers or guests from the marina who does not abide by the laws of the KDWP.

It is the responsibility of each slip tenant to inform their guests and family members of the marina's fishing guidelines.

**** Please practice catch & release ****

**** Please DO NOT DUMP MINNOWS & BAIT into the lake ****
