There will be a \$65.00 charge associated with the removal of obstructions such as life jackets, tubes, and gear during the service. There will be a \$65.00 charge associated with loading boats to their slips, \$95.00 if the boat needs to be loaded out/in for service.

**BATTERY CARE & MAINTENANCE:**

If your cranking battery is found DEAD during the dewinterization process, please select the options below that you approve:

\*Note: Due to charging time, batteries cannot be charged during service.

- \* **Charge** to full capacity and Load Test the battery to determine if it will hold a charge. (Average test, desulfation and charging time is 24/36 hours = \$55.00)
- \*If the battery will not hold a charge and tested bad - **Replace** the battery. (Average replacement labor cost = \$47.50)

**We now offer Pro Guide batteries and Deka Marine batteries with prices starting at \$129.95**

- \*If my battery is DEAD – jump start to complete the job and Customer will handle battery issues personally. (Average jump start = \$25)

**BATTERY CHARGER QUOTE**

For best battery care, an on-board battery maintainer/charging system is highly recommended and will save you money in the long run.
